

TEARS OF JUPITER

She is the divine star of a swirling Caribbean night.
Jupiter is strong - the center of gravity - dueling with
Mars and Venus for your visual pleasure.
You gaze into the sky as she twinkles in the cosmos
and while Calypso music fills the warm night air.

Whether it's an orbit around the sun
or the race track

Tears of Jupiter is sure to please your eye
and your palate.

She fills the center of your universe, while frozen
crystals surround the glass.

They are tears... a planet crying for its lost moons.

Sugar the rim of a cocktail glass in yellow sugar crystals. | Shake 2 parts Maker's Mark (2 oz.), | 1 part Amaretto (1 oz.), | a splash of pineapple juice, and ice into a Boston shaker. | Strain and pour into the glass. | Carefully pour a small amount of Grenadine down the inside of the glass so it layers on the bottom of the drink.
